**High School Diploma** | IB MTIEBI - Tbilisi | **Sep 2008 – Jun 2020**

## EXPERIENCE

**Freelance Full-Stack Developer** | Tbilisi, Georgia | **Jan 2022 – Present**

- Delivered 5+ full-stack websites and Angular web apps for small

businesses and individuals.

- Used Git for version control and regularly deployed projects via Netlify and Vercel.
- Integrated payment systems, API data sources, and dashboard features.

#### **IT Support Technician** | Individual Company | **Feb 2020 – Apr 2020**

- Provided technical support for 20+ users; resolved hardware/software issues and performed system maintenance.
- Installed software, performed upgrades, and configured network settings.

#### **Small Business Owner** | Tbilisi, Georgia | **Jan 2019 – Jan 2020**

- Managed end-to-end operations including customer support, inventory, and digital marketing.
- Built the business website and promoted services through social media channels.

### **PROJECTS**

#### ◆ **Autograp Restaurant Menu** | Live: *autograp.netlify.app*

**GitHub Link:** <https://github.com/draftfile203/Autograph>

**Tech used:** Angular, TypeScript, RxJS, SCSS, Responsive Design

- Developed a single-page restaurant menu site with Angular and dynamic smooth scrolling.
- Designed and implemented reusable components for menu categories, dish descriptions, and image galleries.
- Applied SCSS and Flexbox/CSS Grid for a mobile-first responsive design across devices.
- Optimized performance with lazy loading modules and Angular routing.

#### ◆ **CryptoWallet Web App** | Live: *cyptowallet.netlify.app*

**GitHub Link:** <https://github.com/draftfile203/CryptoWallet>

**Tech used:** Angular, TypeScript, RxJS, REST API, Chart.js, SCSS

- Built a multi-page crypto office and wallet app with account management, balance overview, and transaction history.
- Integrated RESTful API calls to fetch real-time crypto prices and wallet data.
- Included interactive charts (with Chart.js) to visualize balances and trends.
- Implemented routing, modular architecture, and responsive UI for desktop and mobile.
